Benediction		

We have passed from darkness to light
We cannot stay hidden and silent
As the moon reflects the brightness of the sun
We want to reflect You

You asked us to go
In all nations proclaim
Your Salvation and Freedom
Nothing can stop us

Together we will make Your light shine
As the stars pierce the night
Each one of us is the salt of the earth
Giving the flavor of infinity

Blessed are those who hunger and thirst for righteousness.
Who humbly know how to serve
Of those who are placed there on their way
This is how we will shine

With your spirit we will go
Announcing peace, forgiveness
Opening our hearts and homes
Filled with Your compassion

Together we will make your light shine
As the stars pierce the night
Each one of us is the salt of the earth
Giving the flavor of infinity

And we will, shine, shine
Like torches in the world
Shine, shine,
Like a city on the hill
Shine, shine
Like torches in the world
Shine, shine

Together we will make your light shine
As the stars pierce the night
Each one of us is the salt of the earth
Giving the flavor of infinity
